I ma bad motherfucker walking down the track  
I ma disease I am spreading like a fucking plague  
I ma the worst as a dark shitty street ass smack  
Leave u behind with anxiety attack

There's a good, there's a bad and there's me  
I scratch ur soul like car gets the key  
Fly like a butterfly sting like a gee  
Yeah Motherfucker u know it was me.

Never play, never say never hit a hou  
I got some style only sometimes hit my low.  
I am dirty like mud and clean like snow  
If u dont know me than u never know

You dont know me but we just met  
Next time u see me u might be dead  
Infection is there what I just spread  
I see u if u make it I will be ahead.

Dont give no money no robin hood
