

Hangover

When I woke up, I nearly choked up
my lungs r filled with past cigarette smoke
stomach needs a fix it needs coke
feeling my fist when I punch that bloke

My head hurts from alcohol mixing
and all that everyday binge night drinking
Did I just drink or did some drugs?
I being everywhere in clubs and pubs

**Every night is different but mornings r the same
I ll do it again**

**Every night is different but mornings r the same
I ll do it again, do it again**

Feeling real bad need to take my AE7
I missed my curfew should be home by eleven.
Don't even remember some parts of the night
looking for the clues none is in sight.

Every morning I say to myself
Why did u drink now u need professional help
I swear I won't ever drink again
few days go by I drink again.

2X

**Every night is different but mornings r the same
I ll do it again**

**Where's my mtfkin limit how and do I know?
I am going up or down hill I go?**

Few days go by and I drink again
every night is different none is the same
Morning is so far away so I don't care
bars reflection glazing in my stare

**Losing money when I am boozing
and have no fucking memory
What's the point of the drinking
I need some mtfkin REMEDY**

Again . . . did it again

**My head is gonna crack as it hurt so much
need to change the clutch as I am losing the touch
Over and over got another hangover
its no more fun its proper disorder.**
