

Living life

Whisper (improvisation)

Living life u know its all just mine
Living life and know its all just mine
Living life to fullest than just die

I give it a go
I give it a go my life
I enjoy the flow
And I know all my life
I give it a gooooooooooooo

Living life u know its all just mine
Living life and know its all just mine
Living life to fullest than just die

I give it a go that's how I ride
Don't need no rules dont need no guide
I take it all and I always slide
I take control and all is mine
And I say
Do it always just ur way and nothing is stopping me
Taking what I want and nothing can rocking me
Hold on to ur ride and nothing can stop me from the tied
