

Ego sky high

I just had enough of u, u r such ego prick
Try to play hard u sucking on ur mammas dick.
one more word then I click and throw a brick
U remind me of clit with ur tiny dick

U never get my respect cos u need to earn that
It will never happen cos u fucking little sneaky rat
Name gives u hint u mtfkin yankee Brett.
Will Alcapone style u, swear to use my gat

Rip ur neck up, snap ur neck up u motherfucking pussy, bitch u back up.

Ugly ass kid I will cut ur wings
parents gave u everything all those shiny things
But in the real life it doesn't work like that
for that bitch mouth ur end is near and its death.

Annoying u r just punch ur self in the face
when u come around u all over my space
I warning u last time make u disappear no trace
No body no crime so closed is the case

Rip ur neck up, snap ur neck up u motherfucking pussy, bitch u back up.
