

The way I like it

|E|G|A Bb A G|

I like the way you look, oh yeah I like it
I like the way you touch, I must admit it
I like the way you kiss, it can kill me
I like the way you talk to me, talk to me

I like the way we do it, let's do it
I like the way I live, I don't wanna change it
I like the way it is, can you feel it
I like the way you talk to me, talk to me

I like the way you move
I like the way you move
I like the way you treat me, when you're giving me the feeling

I like the way you move
I like the way you move
I like the way you treat me in this godless world
