Verse 1:

The times are gone and they never come back
No matter how hard I try I am just a wreck
I would love to live through my memories again
There is no fucking way It will ever be the same.

Verse 2:

If I could turn back the time I would
I would do it for you, for us and for good
My life didn't turn up the way I want it
But it doesn't matter I will never quit

Verse 3:

I want to turn back the time where we had fun and you were mine
I would love to forget all the pain I would love to see you again,
see you again.

There must be way how to get back to where we were
The old times are still with me they are still there
We can fly together to place we both know

I know where you want to be, in the in the same place like me
It's gonna be like the old days and it's not just an empty phrase
